This is steady state cardiovascular effort. It is meant to be hard but not crushing. The goal is to get a good sweat. You could do it “Fartlek” Style. Fartlek is Swedish for “speed play.” It’s an unstructured interval run, where you go from easy to moderate to hard efforts at random. It’s also fun to do with friends by playing games like follow the leader. There’s a huge mental benefit from this training due to its unpredictability—ditch your watch, your distance goals, and all your other numbers and just go out, have fun, and keep it free flowing.  Note: Running is the most preferable form of cardiovascular conditioning for this exercise however if you have any knee or ankle issue then use the rower or exercise bike.</p>	<p>Workout: 10 min Row @ Easy Pace Then: “30/30” (Row/Ski): 6x (30sec Work/30sec Rest) Row/Ski @ &gt;160/140m Pace per interval Three total Blocks, Rest 4 minutes between blocks Then: 4x (30second Work/30second Rest) Frog Hop Then: Rest 2 minutes Then: 4x (30second Work/30second Rest) Frog Hop Then: 10 minute cardiovascular cool down @ Easy Pace  Note: Intensity for the row/ski portion may need to be adjusted upward or downward depending on fitness level. The goal is to hit an equal number across all 18 intervals (6 in each block) and be as close to exhaustion as possible.  Also note if you don’t have a rower you could always run.</p>	<p>Workout: 100x Turkish Get-up @ 25/15lbs dumbbell or kettlebell. The goal of today is mobility work and recovery. Should be done slow and controlled. Alternate each arm until you have done 50 reps on each side.</p>	<p>Workout: “Fight IWT”: 10 minute Row or Ski @ Easy pace Then: 2x5 Wall Squat 2x10 Squat 2x5 Goblet Squat @ 25/15lbs Dumbbell Then: 10x Power Clean @ 60% 1RM + 2:00 min Row/SkiErg @ &gt;600/500m pace 2:00 min Rest, Three Rounds Then: 5min intermission (including 3rd-2min Rest period above) Then: 10x Front Squat @ 60% 1RM + 2:00 min Boxing/Kickboxing/Pad Work + 2:00 min Rest, Three Rounds 5min intermission (including 2min rest above) Then: 100x Curl-up  Note: Intensity for the row/ski portion may need to be adjusted upward or downward depending on fitness level.
